

The integrity of security covers for monitoring wells is essential to avoid the risk of contamination and damage. Easy access and closure is also a major feature. This means that they must not only be 'vandal proof' but designed and manufactured to minimise the field technician's time during sampling and monitoring.

MGS manufactures and supplies a wide range of covers to suit each application including:-

- ◆ **Stop cock covers**
- ◆ **Circular security covers**
- ◆ **Square security covers**
- ◆ **Petrol forecourt covers**
- ◆ **Landfill gas wellhead chambers**

The following options are available:-

- **Flush fitting into grade**
- **Wide bottom skirt**
- **Water resistant**
- **Lockable**
- **Badged 'MONITORING BOREHOLE'**
- **Heavy duty -11.5 Tonne axle load**
- **Medium duty -7.5 Tonne axle load**
- **Keyed alike padlocks**
- **Steel, cast iron or plastic**
- **Range of colours**
