

GROUNDWATER MONITORING ProPurge™ Twister

Applications:-

- ◆ Groundwater sampling
- ◆ Borehole purging
- ◆ Well development

Features:-

- ◆ Continuously rated motor
- ◆ Powered by 12 volt DC
- ◆ Can run dry up to 2 hours without damage
- ◆ Designed to be used in a 2" well
- ◆ Lightweight
- ◆ Simple & easy to use
- ◆ Reliable long term performance
- ◆ Available with controllers & power boosters
- ◆ Suitable for Low Flow sampling (with controller)
- ◆ Complete with heavy duty cable and extra long wire leads

Twister pump

Low Flow Sampling Controller

PUMP SPECIFICATION

Power consumption	180 watt (max)
Recommended voltage	12-15 at source
Maximum output	11 amps
Outside diameter of pump	38 mm
Maximum diameter (over cable)	45 mm
Length	380 mm
Discharge tubing inside diameter	10 mm
Cable length	23 metres

ACCESSORIES

- PVC & LDPE tubing
- 38 amp PowerPak
- Power booster
- In-line filters

PERFORMANCE
